Burbank Water and Power

Environmental, Health, and Safety Policy

Burbank Water and Power is committed to safely providing reliable, sustainable, and affordable power to our customers, while maintaining a dedication to environmental responsibility and to the health and safety of all BWP stakeholders.

Our commitment includes a high standard of environmental, health and safety performance, which is accomplished through:

- Achieving continual improvement through setting objectives to eliminate hazards and reduce EHS risk.
- A commitment to meeting applicable compliance obligations.
- Fostering a culture of shared responsibility and employee participation for the success of BWP's EHS programs.
- Communicating EHS policy to employees, customers and community members.
